

Envi Energy Experts

Solar Sales Representative

Envi Energy Experts is a renewable energy education and project management firm based in Los Angeles. We are rapidly expanding due to the success of our Free Energy Program! This program allows home and business owners to upgrade to solar power for free, lowering their energy costs and adding value to their property... not to mention helping to save our planet!

Qualifications:

- 3+ years outside sales experience (preferred)
- Excellent communication skills
- Organizational skills and attention to detail
- Strong work ethic and self-motivation
- Commitment to environmental justice

Benefits:

- Base pay (Draw on Commission) for Part-Time or Full-Time
- Pay for performance, unlimited commission and uncapped bonus
- Remote/Telecommute work environment
- Phone allowance (after 6 months)
- Car allowance (after 6 months)

We are looking for motivated, ethical, talented sales professionals to serve each of the following counties, starting immediately:

- Oakland
- Macomb
- Wayne
- Washtenaw
- Kalamazoo
- Van Buren

- and surrounding areas in the Lower Peninsula

PT/FT opportunities available. \$1,000 training seminar plus advanced training provided. This is one of the best sales pitches in the world, partially because no money ever has to change hands between us and our clients. No solar sales experience is required, however some prior outside sales experience is strongly preferred.

This is a performance-based position, paid primarily via commission and bonus. Base pay of \$1,000/mo (PT) or \$2,000/mo (FT) provided upon successful completion of training program. High earning potential! If chosen for a position, you will be earning commissions and bonuses from the first week you're in the field. We also provide some leads and lead resources to our team members.

Welcome to your future. Join the Solar Revolution. Go GREEN With Envi.

About Envi Energy Experts:

Envi Energy Experts is a renewable energy education and project management firm based in Los Angeles CA, with operations in Southern CA, San Francisco CA, and Detroit MI. We specialize in residential, commercial, and nonprofit solar applications, and offer free energy education services to anyone in the areas we serve. We give back to our community, and strive to leave the Earth a greener, more beautiful place.
