

**Solar Installer  
Ecohouse Solar Job Opening  
September 2018**

Ecohouse Solar, based in Columbus, Ohio, is seeking a full-time employee to install residential and commercial PV systems, ranging from 5kW to 100kW.

Ecohouse Solar prides itself on being friendly, full-service and high quality, and works solely in the Central Ohio area.

Opportunity for professional development and increased responsibilities as the company continues to grow.

Minimum qualifications:

- Personal passion for renewable energy
- Self-motivated and eager to learn
- Customer service oriented
- Commitment to teamwork and “can-do” attitude
- Construction experience, including hand tools and power tools
- Ability to lift in excess of 50 lbs., and to perform rigorous physical labor
- Ability to climb ladders and to work at heights, including pitched roofs
- Ability to work in confined spaces, such as attics and crawlspaces
- Willingness to work in all weather
- Must hold valid driver’s license

Preferred experience:

- Solar installation
- Electrical construction
- Inventory and logistics
- Project coordination

Job duties:

- On-site labor: Installation of racking, wiring, panels, inverters, and balance-of-system components
- Pre-construction: Preparation of Ecohouse Solar’s truck with materials and tools for each job
- Materials: Inventory materials, organize truck and storage, and handle deliveries
- Quality: Ensure installations are of high quality and consistent with industry standards

Education:

- Solar training strongly preferred
- Bachelor’s or Associate’s degree preferred
- High School diploma or equivalent required
