Employer

Photovoltaic Systems LLC

Location

7910 Hwy 54 Amherst, WI.

Job Summary

Assemble, install, or maintain solar photovoltaic systems on roofs or ground mounted structures at residential or commercial properties. Will include measuring, cutting, assembling, and bolting structural framing and solar modules, running conduit, and minor electric work. On the job training available.

Responsibilities

- Interpret solar panel installation plans, following manufacturer instructions for proper installation of mounting hardware, inverter components, and solar electric panels
- Technical/construction skills are preferred with excellent attention to detail
- Good customer service skills are required
- Follow safety regulations at all times, including use of harnesses and PPE as required
- Assess job site, identify and resolve potential hazards

Qualifications and Skills

Requirements

- Minimum of High School Diploma or equivalent
- Clean History (drug testing/criminal)
- Driver's License
- Reliable Transportation
- Familiarity Using Power Tools
- Participating on a Team

Preferred

- Electrical Experience
- Experience Installing Solar
- Experience in Construction or Roofing
- Technical College Training
- OSHA 10 Training

Physical Demands and Work Environment

- Must be able to work outdoors for extended periods of time (extreme temperatures)
- Regularly required to lift/move 50 pounds
- Must be able to perform physical tasks including: digging trenches, working from ladders, and working comfortably on roofs/high precarious places
- Work includes accessing tight spaces such as attics, basements, crawl spaces or closets
- Reduced working hours during winter months. Weather conditions sometimes dictate working hours.

Interested candidates should submit a resume to Jim Kerbel: pvsolar@wi-net.com
