

Solar Installer

Job Summary

SunPeak, a Madison, Wisconsin-based solar photovoltaic (PV) developer is looking for several Solar Installers to strengthen our commercial installation team.

Solar Installers report to the construction foreman and play a vital support role in the overall implementation process. Successful candidates will possess some construction experience and will have an interest in learning and growing with a strong, employee-focused company.

Some out-of-state travel is required (70%)

Essential Job Functions

- Climbing ladders, working at heights
- Working outdoors in the elements
- Use of power tools and motorized equipment
- Physical fitness; ability to lift materials weighing up to 50 lbs.
- Ability to learn and carry out basic construction and electrical skills. Previous experience in these areas is preferred.
- Working within a team
- Participation in safety training courses; prior safety training is a plus
- Ability to travel out-of-state for construction projects
- A valid driver's license and/or reliable transportation
- Ability to work full-time with some weekends
- Legal work status in the United States
- Basic English-language skills (translation services are not currently available on job sites)

Key Attributes

- Willing to work hard and be a team player
- Conscientious and efficient with time
- Able to take directions and carry out assignments to completion

Education Requirements

A high school diploma or HSED/GED preferred.

Compensation and Benefits

This is a full-time position with a competitive starting wage, eligible for advancement and overtime pay (time and a half) after 40 hours weekly. Additional individual and/or team bonuses may also be available based on individual merit and/or overall company success. SunPeak provides health insurance, paid time off and other benefits for full-time employees. Meals, lodging and transportation expenses will all be paid by the company for projects that require overnight travel.

More about SunPeak

SunPeak is a commercial solar PV developer headquartered in Madison, Wisconsin. We have the capability to professionally assess feasibility, design, engineer, install, commission, and maintain solar systems that provide decades of emission-free electricity from the sun. SunPeak has installed some of the largest solar projects in the Midwest and is quickly expanding its customer base throughout the nation.

Our company is built on a strong work ethic and has a team-oriented culture. We provide our employees with the tools and mentoring to grow and succeed in their careers. Solar energy is one of the fastest-growing industries in the nation with limitless potential in the future. We believe that clean energy can and should be available to everyone. If you desire to join a team of dedicated individuals and have a positive impact on our environment, we want to hear from you!
