

Solar+Storage

Design and Installation Training

MREA's Solar+Storage is a new professional offering that will explore the dynamic pairing of solar photovoltaics (PV) and batteries. Gain technical understanding of solar-plus-storage systems from experts with diverse backgrounds, and experience.

Join us for Part One of Solar+Storage on January 23rd – 26th, 2020 in this new unique offering. Stay for the full course or choose the days you want to attend! Please note that the January 25th offering will be hosted at the Gordon Bubolz Nature Preserve in Appleton, WI.
