

# Solar Installation Position

## JOB DESCRIPTION

Rochester-based solar energy company has an opening for solar installation in the La Crosse, Wisconsin area. The person should have a solid construction or installation background with the ability to read plans, calculate material quantities, and choose the right tools and techniques for the job. Experience operating skid steers and other construction equipment is a plus. The person should be comfortable working on roofs and should be able to lift at least 50 pounds. In addition, the ideal candidate would have prior construction, solar or electrical experience. Prior solar installation experience is desirable but not a requirement.

## COMPANY OVERVIEW

Solar Connection, established in 2010, is a solar energy solutions company, based out of Rochester, MN. The company designs and installs solar energy systems for homes, businesses, and farms throughout the region. We are committed to the safety and wellness of our team and the greater good of our communities.
