

SOLAR CORPS

A Workforce Development Partnership
Midwest Renewable Energy Association

midwestrenew.org/solarcorps
info@midwestrenew.org

About The Solar Corps:

The Solar Corps is a workforce development project that connects technical and community college students with solar companies through internships.

As the need for qualified solar professionals grows, these work experiences give students and recent graduates the real-world experiences to establish themselves in career-pathways in the solar industry.

Scan to Learn More!

Focused On:

Hands-on and work-site experience

Professional certification to advance in the solar industry

Student job placement

Get Involved:

Tech Schools

Curriculum Development
Training for Instructors

We're helping colleges across the Midwest establish solar career pathways for students through curriculum development training, advanced solar training and opportunities for collaboration.

Solar Companies

Connect with
Potential Employees

Solar companies can post internships and job openings to qualified candidates in the solar industry on our Job Board at **[solarenergy.jobs](#)**.

Students

Gain Hands-On
Work Experience

Students can gain real-world work experience in the solar industry through internships with our network of solar companies throughout the Midwest.
